

CHANNEL LIST

The Logan Lake TV Society
An all-volunteer group

The Logan Lake TV Society, was founded the 1970's, to broadcast 2 channels of TV to Logan Lake. At the time, direct-to-home satellite TV did not exist and reception of distant TV & FM stations was (*and still is*) impossible, due to our high, mountainous terrain; so we needed something!

Over the years, the system has grown until now we have one of the most advanced community rebroadcast systems in Canada. **We broadcast more channels of over-the-air, Digital TV per person, than anywhere in North America!** Our little town boasts 27 Digital channels as well as an on-screen program guide. We offer virtually every major Canadian and US network, as well as 2 all-Sports networks, a movie channel and a number of speciality channels. **All you need is an antenna on the roof!** (If you have a home in the new Ironstone development, that's not quite true, so call us at 250.320.6215.)

Remember, when you first set up your TV or set-top box, you'll need to run the "find Channels" routine in it's menus, before you can receive our (*or any*) signals. (*Make sure the source is set to "air" or "antenna", NOT cable.*)

Should you experience any problems setting up your system, there is a wealth of information under "Help" on our website, as well as channel listings up to a month in advance. It's all at www.LLTVS.ca.
